PROFESSIONAL SUMMARY

Dedicated professional and self-taught Software Developer, passionate about lifelong learning and harnessing the latest technologies to build and manage web applications.

PROFESSIONAL EXPERIENCE

Software Developer II, Advocates for Human Potential, Inc. May 2022 — Present

- Developed and optimized RESTful APIs in Node/Express, achieving a throughput of 10,000 requests per second with an uptime of 99.6%.
- Collaborated with the team to ensure optimized database management, data storage, and ensuring efficient integration and maintenance of the web application using MySQL.
- Spearheaded UI/UX design efforts while actively supporting backend development of AHP's successful web application, resulting in a 55% surge in government user adoption.

Key Achievements

- Led the discovery and resolution of high-security vulnerabilities with user authentication and the permissions system which resulted in a reduction of unauthorized access incidents by 15%.
- Incorporated automated testing into the CI/CD pipeline, resulting in a 25% decrease in code errors, ultimately accelerating project delivery timelines.
- Facilitated 20+ technical training sessions, fostering professional development and knowledge dissemination across cross-functional teams.

Account Manager, TransPerfect Translations May 2021 — May 2022

- Demonstrated exceptional leadership skills by managing the entire lifecycle of client accounts through effective communication, managing interactions, and problem-solving.
- Project-managed and organized all accounts to successfully provide software or products sold, ensuring seamless project delivery and client satisfaction.

EDUCATION

University of Southern California, Business Administration, Bachelor of Science
